

TRAINING

Certified in the Governance of Enterprise IT (CGEIT)

IT Systems are continually evolving to ensure competitiveness, enable reach to global markets and handle external pressures such as regulation. By managing, advising and assessing the enterprise's IT infrastructure and processes, individuals play a role in IT governance and provide significant support to the board of directors and executive management. The Certified in the Governance of Enterprise IT (CGEIT) program supports increasing business demands and recognizes the wide range of professionals whose knowledge and application of IT governance principles are keys to managing the forces of transition.

With the CGEIT designation comes many professional and personal benefits including:

- *Worldwide recognition for professional experience*
- *Enhanced knowledge and skills*
- *Career advancement*
- *Enhanced job placement*

Becoming CGEIT certified will give you recognition for your work (in the governance of enterprise IT). More importantly, you become part of an elite group, which has done the best practices in implementation and governance.

Recognition for IT Governance Experience/Career Advancement

Achieving the CGEIT credential adds value to professionals who earn the certification and the enterprises they support. CGEIT promotes the advancement of professionals who wish to be recognized for their IT governance-related experience and knowledge. The CGEIT certification program recognizes those who demonstrate a visible commitment to excellence in IT governance practices. (See www.isaca.org/recognitions)
