

TRAINING

COBIT 2019 FOUNDATION TRAINING

The COBIT 2019 management framework offers a fully modernized approach for both Enterprise Governance and managing Information & Technology (I&T). It provides practitioners with essential processes and tools for minimizing risks, creating value, maximizing corporate resources, and ultimately achieving crucial enterprise goals. The COBIT 2019 Foundation training and certification course will give you a detailed overview of COBIT® 2019 areas on framework introduction, principles, governance system, and components, governance and management objectives, performance management, designing a tailored governance system, business case and implementation.

This two-day training qualification course includes examples and case studies which will help the participants to get good insights into how business and IT goals can be aligned to create value.

AREAS OF COVERAGE:

Module 1: COBIT 2019 Framework introduction
