

TRAINING

CERTIFIED INFORMATION SYSTEMS SECURITY PROFESSIONAL(CISSP)

Rhythex Consulting Limited is glad to present our training proposal to your organization.

The CISSP has clearly emerged as the key certificate for security professionals. Organizations are demanding experienced information security professionals with the certification to protect their information and assets.

In a recent information survey of Information Security jobs on a major employment website, over 70% of the positions require CISSP certification. Achieving the CISSP Certification is an important career decision, and the right preparation which can make all the difference for the individual and the organization.

This course has been prepared with great care to provide the most in-depth study of the 8 domains that makes the CISSP CBK, test taking techniques, updated seminar materials and CISSP experienced facilitators.
