SOME OF OUR GRC SOLUTIONS

A. DILIGENT AUDIT MANAGEMENT SOLUTION (AUDITBOND)

Easy-to-use software for audit professionals to efficiently manage the entire audit workflow. Communicating via email or external apps is easy and convenient, but it puts company information at significant risk. In addition to Audit Management is a flexible audit management solution designed to drive efficiency across your entire audit workflow, from planning to reporting. Audit Management is designed to scale with you. Our built-in best practices support your entire audit workflow, allowing you to gain efficiency with automation and repeatability across your entire workflow.

B. DILIGENT RISK MANAGEMENT SOLUTION (RISKBOND)

Provide your teams with a better way to find the most relevant results and decrease false positives through our unique, patented data service for adverse media search and monitoring. Our real-time data can easily integrate into any internal or third-party platform to decrease risk and ensure more effective decision-making.

AVERAGE COST SOFTWARE & IMPLEMENTATION SERVICE: \$54,000.00

C. DILIGENT COMPLIANCE MANAGEMENT SOLUTION (COMPLIANCEBOND)

Software that simplifies & centralizes regulatory compliance management, minimizes risk exposure, and serves up easy, real-time reporting. Reduce complexity and decrease the risk of compliance gaps by getting your compliance management out of spreadsheets and SharePoint. Track and map requirements, and reduce time spent documenting and testing compliance.

Automate testing for real-time compliance monitoring and prioritize your time on key issues. With built-in reporting, you'll provide clear oversight for management and the board. Plus, easily demonstrate to regulators that you're compliant.

AVERAGE COST OF SOFTWARE & IMPLEMENTATION SERVICE: \$54,000.00

D. DILIGENT ACL ROBOTICS ANALYTICS SOLUTION

ACL Robotics is designed exclusively for governance professionals to help make you more efficient by automating timeintensive and repetitive processes. It goes beyond any simple analytic solution or BI technology. ACL Robotics runs your data access, reporting, and remediation tasks from beginning to end. It reduces the number of tools you need, provides data in real time, and frees up your time so you can focus on delivering insights that will have the greatest impact.
